Objective:

Enthusiastic and detail-oriented MERN Stack Developer with strong foundation in JavaScript, React.js, Node.js, Express.js, and MongoDB. Eager to contribute to team success through hard work, attention to detail, and excellent organizational skills. Seeking to begin my career in a dynamic tech company.

Technical Skills:

- Languages: JavaScript, TypeScript, HTML5, CSS3
- Frontend: React.js, Redux, Bootstrap, Material-UI
- Backend: Node.js, Express.js
- Database: MongoDB, Mongoose
- Tools & Platforms: Git, GitHub, Postman, VS Code, RESTful APIs, Firebase (Basic)
- Other: Agile Methodologies, JSON, JWT Authentication

Projects:

1. QuickDine | Restaurant QR Ordering App | MERN Stack

- QR-Based Ordering: Customers can scan a QR code to access the menu, place orders and track status (e.g, order received, preparing, served)
- Role-Based System: Owners can assign tasks to managers; managers assign tasks to cooks/waiters and update order progress
- Built real-time status updates and task flows using MERN Stack (MongoDB, Express, React, Node.js)

2. JobSync | MERN Stack

- Developed a job tracking platform to manage applications and job postings.
- Users can add, update, and track job applications in a centralized dashboard
- Implemented secure authentication with JWT and role-based access
- Built RESTful APIs with Express and MongoDB for backend services
- Responsive UI with React and TailwindCSS

3. Chat App | MERN Stack

- Built a real-time chat app using MongoDB, Express, React, and Node.js.
- Implemented user auth with JWT and real-time messaging via Socket.io.
- Supported 1:1 and group chats with message history.
- Designed responsive UI with TailwindCSS.
- Used Zustand for state management and MongoDB for data storage.
- Deployed on GitHub.

Experience:

MERN Stack Intern (Naresh i Technology, Hyderabad) (April-2025)

- Completed hands-on training and project development using MongoDB, Express.js, React.js, and Node.js
- Gained experience in building full-stack web applications with CRUD functionality
- Collaborated in a team to develop and deploy real-world projects
- Improved skills in RESTful APIs, user authentication (JWT), and responsive design using TailwindCSS
